

South Cheshire Riding Club (SCRC) Generic Risk Assessment for Riding Club Activities

This generic risk assessment document will provide an umbrella approach to SCRC welfare and safety. In addition to this document specific location risk assessments will be provided as well as a safety check list.

SCRC is committed to achieving and maintaining the highest standards of health and safety for all members, spectators, supporters and others who may be affected by the club's activities.

"A risk assessment is nothing more than a careful examination of what, in your work, could cause harm to people, so that you can weigh up whether you have taken enough precautions or should do more to prevent harm. The aim is to make sure that no one gets hurt or becomes ill. A risk assessment involves identifying the hazards present in any undertaking (whether arising from work activities or from other factors (in this case, the riding club) and then evaluating the extent of the risks involved, taking into account existing precautions".

The results of a suitable and sufficient risk assessment should help users choose which good practice measures are most appropriate."

SCRC will use the five steps to risk assessment:

Step 1: Identify the hazards

Step 2: Decide who might be harmed and how

Step 3: Evaluate and decide on precautions

Step 4: Record and Implement them

Step 5: Review your assessment and update if necessary

SCRC will use the 5 x 5 risk rating matrix as part of this process. This matrix considers the likelihood (probability) combined with the consequences (Impact or severity).

A hazard is the potential to cause harm.

Generic Risk Assessment for SCRC Activities

Activity/Hazard	Who might be harmed and how?	Likelihood	Consequences	Risk rating without controls	Existing Controls	Actions to be taken and by whom	Risk rating after controls
<p>Access to Club Venues</p> <p>Collison of vehicle/pedestrian/horse</p>	<p>General Public, Competitors, Officials, Horses</p>	<p align="center">2</p>	<p align="center">3</p>	<p align="center">6 (Low)</p>	<ul style="list-style-type: none"> • SCRC follow the club venues health and safety procedures. • Vehicles should enter club venues at 5mph or adhere to existing speed restrictions. • Each club venue is individually assessed for additional hazards at the entrance. • Signage for the event should be displayed if appropriate. • Access points must be kept clear at all times for access of emergency vehicles • Onus is on drivers taking care when manoeuvring vehicles. 	<p>None</p>	<p align="center">1 x 3 = 3 (Low)</p>
